

## Natural Resources Conservation Service, USDA

## § 621.30

governments, regional planning boards, other planning groups, and State and Federal agencies.

### § 621.22 How to request assistance.

(a) A conservation district, local community or other jurisdiction may request floodplain management assistance for a local area for which they are responsible, by letter to the governor or the agency of State government responsible for floodplain management activities. Assistance in making application may be obtained by contacting any NRCS office.

(b) The governor or his designee may request floodplain management assistance for the State by submitting a written request to the State Conservationist.

### § 621.23 Conditions for approval.

(a) USDA floodplain management studies are authorized by the Director of the Basin and Area Planning Division. Priority for starting floodplain management studies is based on the same factors as for USDA Cooperative Studies as described in § 621.13.

(b) A study for an individual community may be started upon completion of a plan of work in which the Director of the Basin and Area Planning Division concurs and for which funds are available. Preparation of the plan of work is the responsibility of and must be approved by the applicant, the responsible State agency, and the State Conservationist. The plan sets forth the responsibilities of the applicant, the State, and USDA in carrying out the study and interpreting and using the data in a local floodplain management program. The State agency responsible for floodplain management activities may establish priorities on which to base the sequence of approval of floodplain management studies within its State. The number of studies started each Federal fiscal year is governed by the availability of funds and personnel and the amount of State and local assistance available.

(c) States and communities are encouraged to make monetary or in-kind contributions toward the floodplain management study. The State and local share may reflect in-kind contributions in lieu of fund transfers.

### § 621.24 NRCS responsibility.

NRCS is responsible for providing leadership for scheduling and implementing the technical phases of the studies and preparing the reports. NRCS assists in interpreting the study results.

### § 621.25 Recipient responsibility.

The State agency is responsible for developing State priorities for floodplain management studies and coordinating this work with related activities in the State. The cooperating local government entity is responsible for obtaining permission for carrying out field surveys. The State and local participants assist in distributing and interpreting the report and providing public information and educational services.

## Subpart D—Joint Investigations and Reports With the Department of the Army

### § 621.30 Description.

(a) As provided by Pub. L. 87-639, joint investigations and reports by USDA and the Department of the Army may be authorized by resolutions adopted by the Committee on Environment and Public Works of the U.S. Senate or the Committee on Public Works and Transportation of the U.S. House of Representatives for any watershed area in the 50 States, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands if the nature of the watershed area problems dictates need for a joint effort by the two Departments.

(b) Authorized joint investigations and reports are made to determine works of improvement needed in the study area for flood prevention; for the conservation, development, use, and disposal of water; for flood control; for the conservation and proper use of land; and for allied purposes. The joint report to Congress may include a water and related land resources plan recommended for implementation. Such an implementation plan must be accompanied by an environmental impact statement (EIS) and must be in sufficient detail to permit its implementation.

## **§ 621.31**

(c) As mutually agreed by USDA and the Department of the Army Corps of Engineers, the report and EIS are forwarded to Congress through appropriate channels after technical, public, and interagency reviews in accordance with NRCS policy as described in § 622.34, or in accordance with the Corps of Engineers' policy concerning technical and public review. Implementation of these plans is contingent on congressional action.

### **§ 621.31 Who may request assistance.**

Any organization, group, or State or local government may request assistance.

### **§ 621.32 How to request assistance.**

Applicants for a joint investigation and report should request their congressional representative(s) to initiate appropriate action under Pub. L. 87-639.

### **§ 621.33 Conditions for approval.**

A joint investigation and report is authorized by a resolution of the Committee on Environment and Public Works of the U.S. Senate or the Committee on Public Works and Transportation of the U.S. House of Representatives. Studies are initiated when funds for them are appropriated by the Congress.

### **§ 621.34 Recipient responsibility.**

Participating local and State governments work with USDA and the Department of the Army representatives in developing objectives, collecting data, analyzing problems, planning and formulating proposals, and considering financial plans. Active public participation is solicited in the planning process through means such as questionnaires, public meetings, citizen advisory boards, and technical committees.

## **Subpart E—Interagency Coordination**

### **§ 621.40 Participation in Federal interagency policy activities at the national level.**

(a) Policy development in water and related land resources is coordinated at the Federal level through the Cabinet Council on Natural Resources and Environment. NRCS provides staff sup-

## **7 CFR Ch. VI (1-1-10 Edition)**

port and representation in these activities as requested.

(b) Within the Department, all interested USDA agencies participate in water policy development through the USDA Committee on Natural Resources and Environment and the Water Issues Work Group.

(c) NRCS provides appropriate staff support when requested for committees, work groups, and task forces established for interagency coordination of water resources related activities of Federal agencies.

### **§ 621.41 Participation in Federal-State policy and planning activities at the regional level.**

(a) NRCS has a responsibility to represent the Department when needed to assist regional water planning entities and interagency committees which coordinate water resources planning activities.

(b) For the Arkansas-White-Red Basin Interagency Committee (AWRBIAC) and the Pacific Southwest Interagency Committee (PSIAC), the USDA member periodically serves as chairperson and provides an executive secretary. For the Southeast Basin Interagency Committee (SEBIAC), NRCS periodically provides an executive secretary for the chairperson, who is a State government official.

(c) Under the leadership of NRCS, other USDA agencies, principally the Forest Service and Economic Research Service, also participate.

### **§ 621.42 Federal-State compacts.**

NRCS is designated to represent USDA in assisting the U.S. Commissioners of the Delaware River Basin Commission and the Susquehanna River Basin Commission. In carrying out this responsibility, NRCS provides a liaison officer to work with the U.S. Commissioners on policy level matters, as well as providing the USDA representatives on the Federal field committees to assist the Commissioners.

### **§ 621.43 Interstate compacts and commissions.**

As assigned, an NRCS State Conservationist is the USDA point of contact for governing bodies of interstate compacts and commissions concerned
